your honor. I am not a spy. I am only an ordinary man. I have never been as an agent of PRC. I never accept any order from PRC. I have never asked Chi Mak to send anything for me and I have never given any information to Chi Mak.

In 1979 I sent my graduate school class notes to Professor Ku at Harbin Institute of Technology. These notes were used for his teaching reference. I had no contact with China until 1985.

I gave seminar for technical exchange. The contents were general idea of aircraft design which can be seen from the public source. I sent some structural design manuals to them. The purpose I sent the manual was not to show the contents of the manual, because in the early 70's. China already make one aircraft similar to Boeing 707, they already had the knowledge shown in the manual. I wanted to show them that we have the best system to ^{the purpose} produce the best product. When we have a big project we always edited a manual for engineer. The manual guided the engineers to an standard methodology and efficient process. This system helped us to produce the best and reliable products. I knew they can make aircraft but they cannot make important parts such as engine, landing gear hydraulic system and computer. They have to buy them from other countries. I wish when they seen our manual they can realize ^{we have} ~~our~~ the best system to produce the best product and convince them to buy our product; not buy Russian or European product.

The documents I threw in the trash were for recycling. Those documents I brought home to work because the deadline of the solve the problem was urgent. I had no time to finish in the

office. I brought home to find out the computer output errors. the next day I can re-run the computer in the office. Those old documents were no longer useful just like scraped papers so I put them in the trash container for recycle. I am an environmental supporter. I don't want to waste the papers. I don't have "secret library" my computer is a regular computer no secret code or special access to open any file directory. when the file was no longer useful files deleted just like the e-mail deleted. There was no any secret library.

The delta IV TSM documents were not classified documents. They were not under control environment office area. The documents were first used by engineer Viende Ho. His name was marked on the front page cover. classified material was not allowed to mark personal name. The status of this documents just like the regular documents. Phased Array Antenna document was only for the preliminary study. These two ~~job~~ projects were on and off several times. I kept the documents just whenever I could work the project again.

The documents I saved at home ~~or~~ were used for my work and I was planning to write a technical book. the documents were used as references. I never have intention to give anyone your honor, I love this country, my children and grandchildren all live here. I wish this country is the best country so my children and grandchildren can have better life.

Your honor, I beg your pardon to let me to live with my family peacefully.

Thank you, your honor.

Greg Cheng

CERTIFICATE OF SERVICE

I, Janine Philips, declare,

That I am a citizen of the United States and am a resident or employed in Orange County, California; that my business address is 115 Avenida Miramar, San Clemente, California 92672; that I am over the age of 18 and not a party to the above-entitled action.

That I am employed by a member of the United States District Court for the Central District of California and at whose direction I caused service of: **DEFENDANT DONGFAN “GREG” CHUNG’S SENTENCING LETTER** on the interested parties as follows:

X BY ELECTRONIC MAIL: by electronically filing the foregoing with the Clerk of the District Court using its ECF System pursuant to the Electronic Case Filing provision of the United States District Court General Order and the E-Government Act of 2002, which electronically notifies said parties in this case:

BY U.S. MAIL I am “readily familiar” with Bienert, Miller & Katzman, PLC’s practice for collecting and processing mail with the United States Postal Service. Under that practice, it would be deposited with the United States Postal Service that same day in the ordinary course of business. As such, I caused to be mailed the foregoing document(s) to the following non-ECF participants in this case:

AUSA Greg Staples
AUSA Ivy Wang
Office of US Attorney
411 West Fourth Street, Ste. 8000
Santa Ana, CA 92701

I certify under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

This certificate was executed on February 4, 2010, at San Clemente, California.

S/Janine Philips _____
